

Matrix Communicate.

Powerful Collaborative Messaging Software

Matrix enables you to send, receive and manage high volumes of messages. Collaborative messaging is seamlessly integrated with advanced ship broker software to provide you with a single desk top environment - for limitless switching between address book, messaging and vessel information. Matrix enables you to successfully **manage every aspect of your workflow** with speed, efficiency and security.

Powerful collaborative messaging - send, receive and manage high volumes of messages

Full intelligent message filtering – Matrix serves the data you need directly up to you

Heavy duty mail server - maximizes email throughput, combined with load balancing to smooth flow during peak periods

Fast and powerful search engine - ensuring that data on messaging, associated vessels and owners is retrieved and displayed automatically. Matrix proactively searches, flags up and retrieves relevant emails and faxes to a specific fixture as they arrive

Sophisticated auto-filing - all incoming and outgoing messages

Closed loop messaging - messages sent and received from Blackberry or Windows Mobile captured as auditable Matrix messages

Instant Messaging – fully integrated with MSN and Yahoo Instant Messaging - capture, store and search business related instant messages with auditable message numbers

International language recognition - Matrix is a global tool for a global business. The software recognizes all world language characters and can **store data in any language or alphabet**

The screenshot displays the Matrix software interface with two main message lists and a vessel detail table.

Message List 1 (Left):

Dir	Msg ID	Creation Date Time	Author	Subject	Message Type
O	277633	11/07/2006 17:30	NK	tanker	Internet Email
