

Matrix Shipbroker.

Providing Vital Commercial Data: When you want it - how you want it

Matrix users can customise every aspect of the software to suit their bespoke commercial need. The user decides on the precise data fields they require and how the data should be served up to them.

Immediate access - deep integration allows limitless switching between vessel and commodity information, address book and messaging with simple mouse or keyboard operation; within a single desk top environment. Matrix enables you to successfully **manage every aspect of your workflow** with speed, efficiency and security.

Retrieve and display accurate, detailed vessel information and commercial data at the touch of a button:

Extensive fully customisable S&P, dry, tanker, chemical, Ro-Ro, container and offshore templates

Hybrid templates – blend commodities and business templates

Vessel and cargo world map display enables user to see full requirement and vessel ratios to assist principals in commercial decision-making.

Extensive and relevant vessel data – users can display the entire **Lloyds Register Fairplay fields** - the Matrix form designer enables users to quickly and easily reduce this to **display the exact data fields** that are of commercial interest.

Lloyd's data and privately sourced data on the world merchant fleet can be displayed simultaneously.

International language recognition - Matrix is a global tool for a global business. The software recognizes all world language characters and can **store data in any language or alphabet.**

The screenshot displays the Matrix Shipbroker software interface. On the left is a navigation pane with options like Messages, Files, Faxes, and Positions. The main window shows a 'Tanker Department Messages' list with columns for Dir, Msg ID, Creation Date Time, Author, Subject, and Message Type. Below this is a 'Vessel Detail' table with columns for Vessel Name, LRIMO, DWT, Built Date, No Of Hb, and Flag. A 'Filter builder' window is open, showing a search condition for 'Vessel Name' equals 'China Pride'.

Dir	Msg ID	Creation Date Time	Author	Subject	Message Type
